- Facilitating economic growth & Development

ICCIMA

- 34 Branches
- More than 47000 members

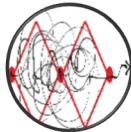

Digitalization

Globalization

Harmonization

Simplification

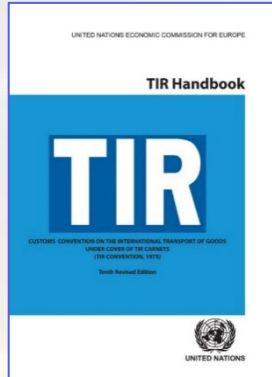

Economic Growth

- Infrastructure availability
- Appropriate investment
- Technical knowledge
- Authorization
- Compliance

Guaranteeing & Issuing TIR & ATA

- Islamic Parliament of Iran
- Guardian Council

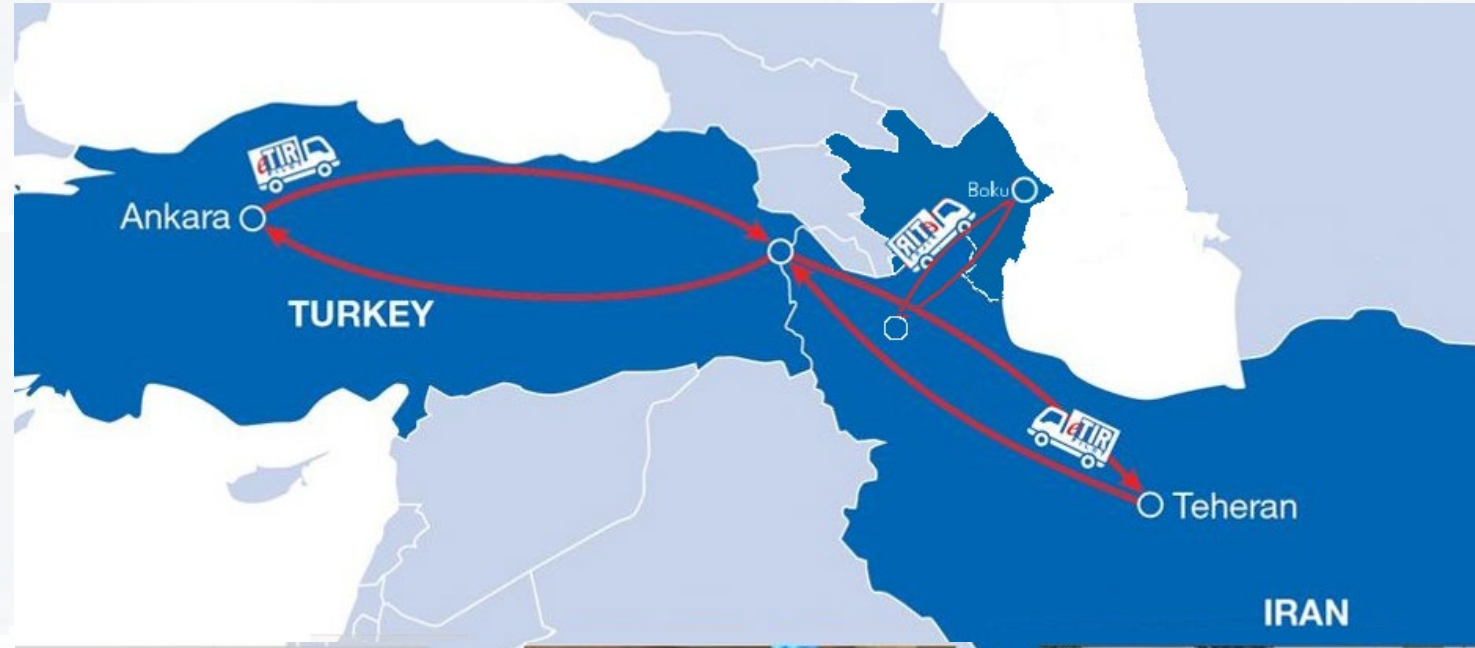

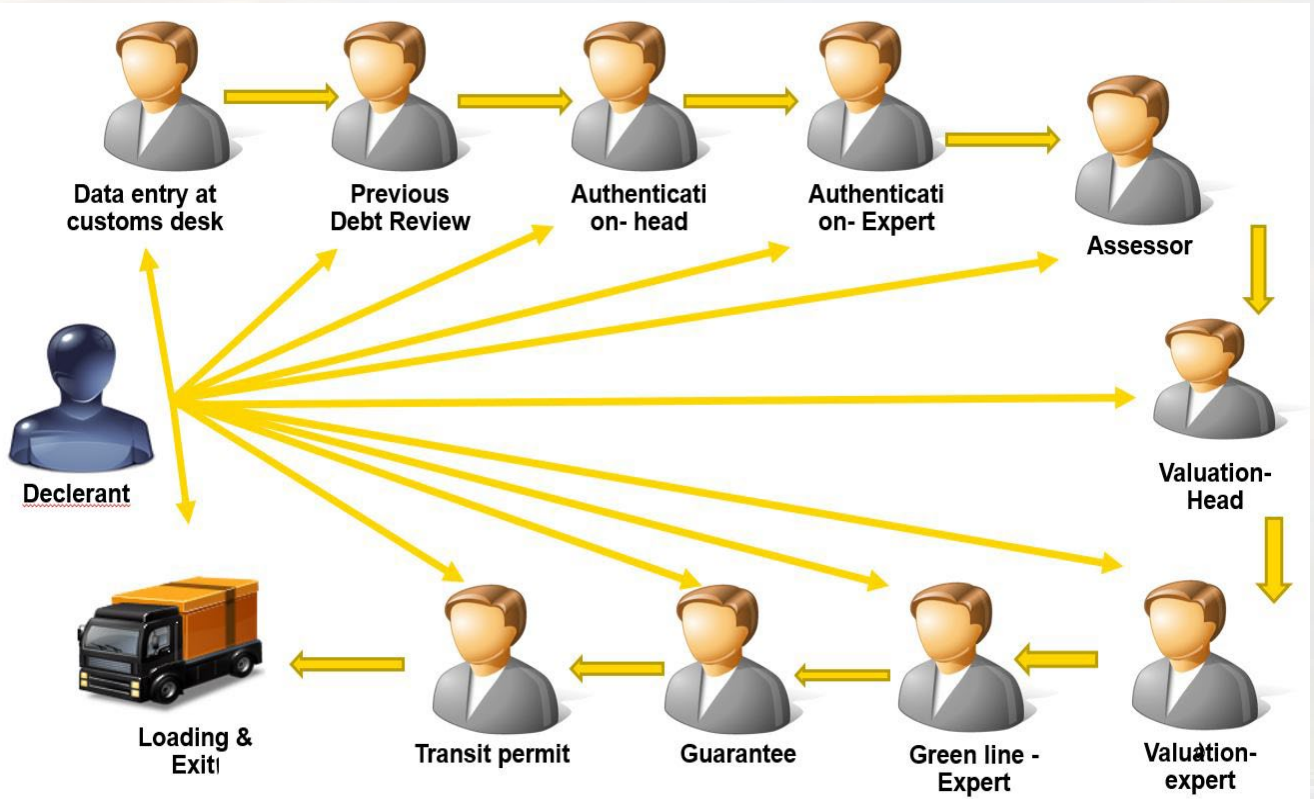

Iran – Turkey – 2015

Iran – Azerbaijan – 2019

- **Customs control elimination**
- **Higher operational speed**
- **Less broker engagement**
- **satisfaction**

Paper base system with annually 1,500,000 declaration in 140 customs offices.

Average 30 documents for each declaration including various permits, authentication documents, etc.

Some of declaration included up to 100 documents

Average annual consumption of 45 millions of papers.

According to the law, documents must be archived for 10.5 years.

There was possibility of forging of documents.

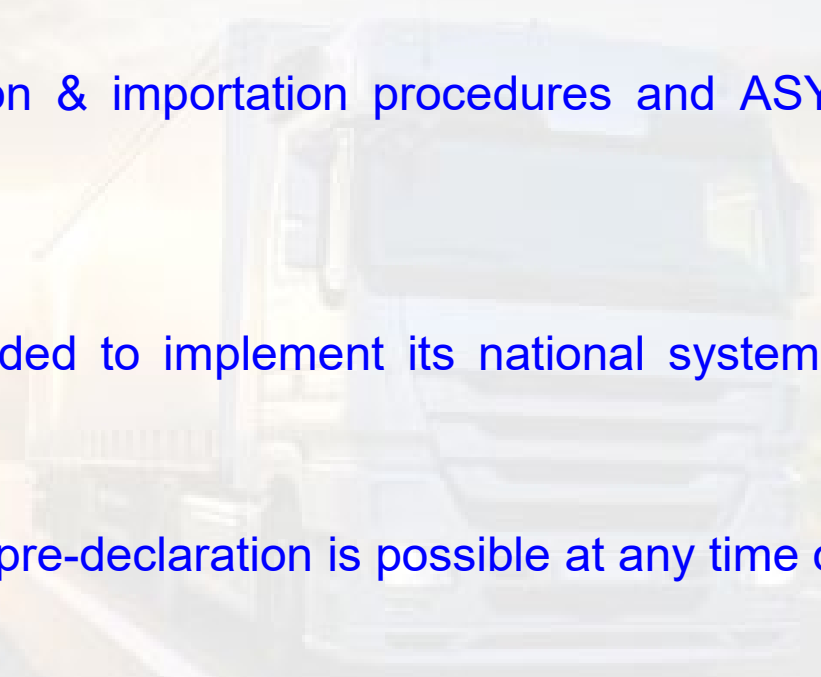

ASYCUDA

Automated System for Customs Data

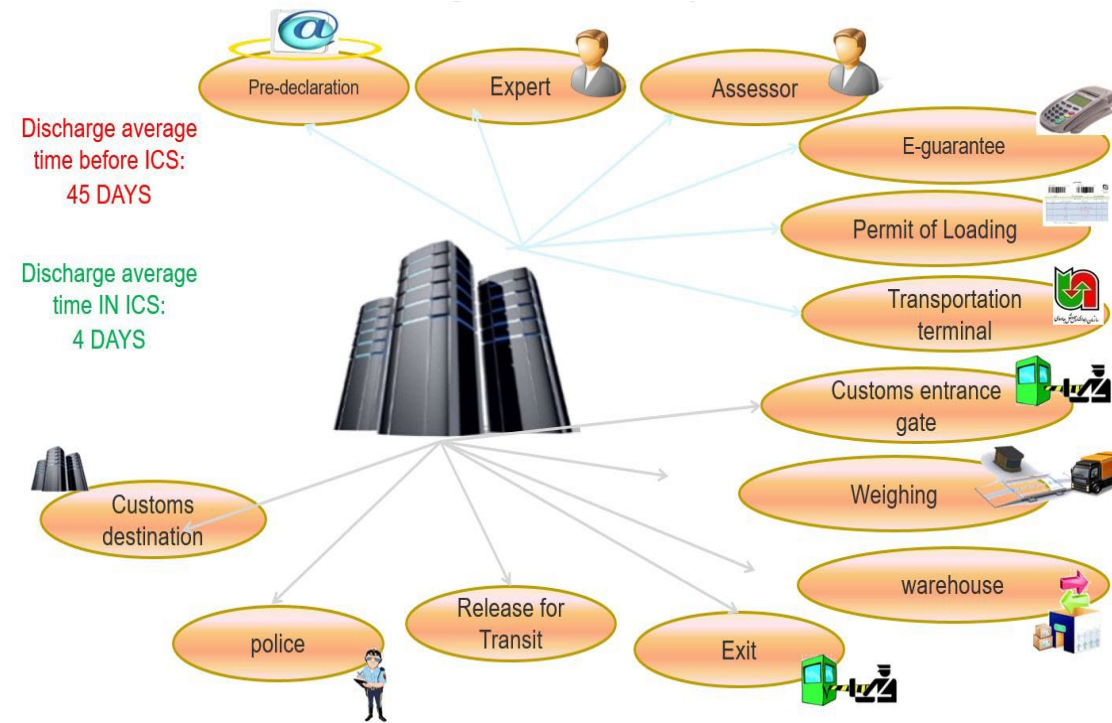

- ✓ Due to above mentioned since 1997 implementation of ASYCUDA system started in IRICA.
- ✓ ASYCUDA only covered exportation & importation procedures and ASYCUDA world added Transit in 10 customs.
- ✓ Due to some limitation IRICA decided to implement its national system (Integrated Customs System) since 2013
- ✓ by implementing ICS data entry via pre-declaration is possible at any time of the day.

implementation of ICS

- ✓ ICS is linked to 29 organizations electronically.
- ✓ Prevent forging.
- ✓ Cost reduction.
- ✓ In transit system the electronic data exchange between departure and destination led to electronic discharge.

I.R.IRAN Road Network

Total kilometers of roadway network about 210,000 Km

2,400 km Freeway

18,122 km Highway

25,814 km Major Road

42,536 km Minor Road

132,480 km Rural Road

170 km Tunnels
