 - TIR Convention – 1975
- Brazil
 - Acuerdo sobre Transporte Internacional Terrestre (International Land Transport Agreement) - ATIT

Implementation of the TIR Convention, 1975: challenges and opportunities

OPPORTUNITIES

Historical contextualization

Why Brasil wants to sign the Convention

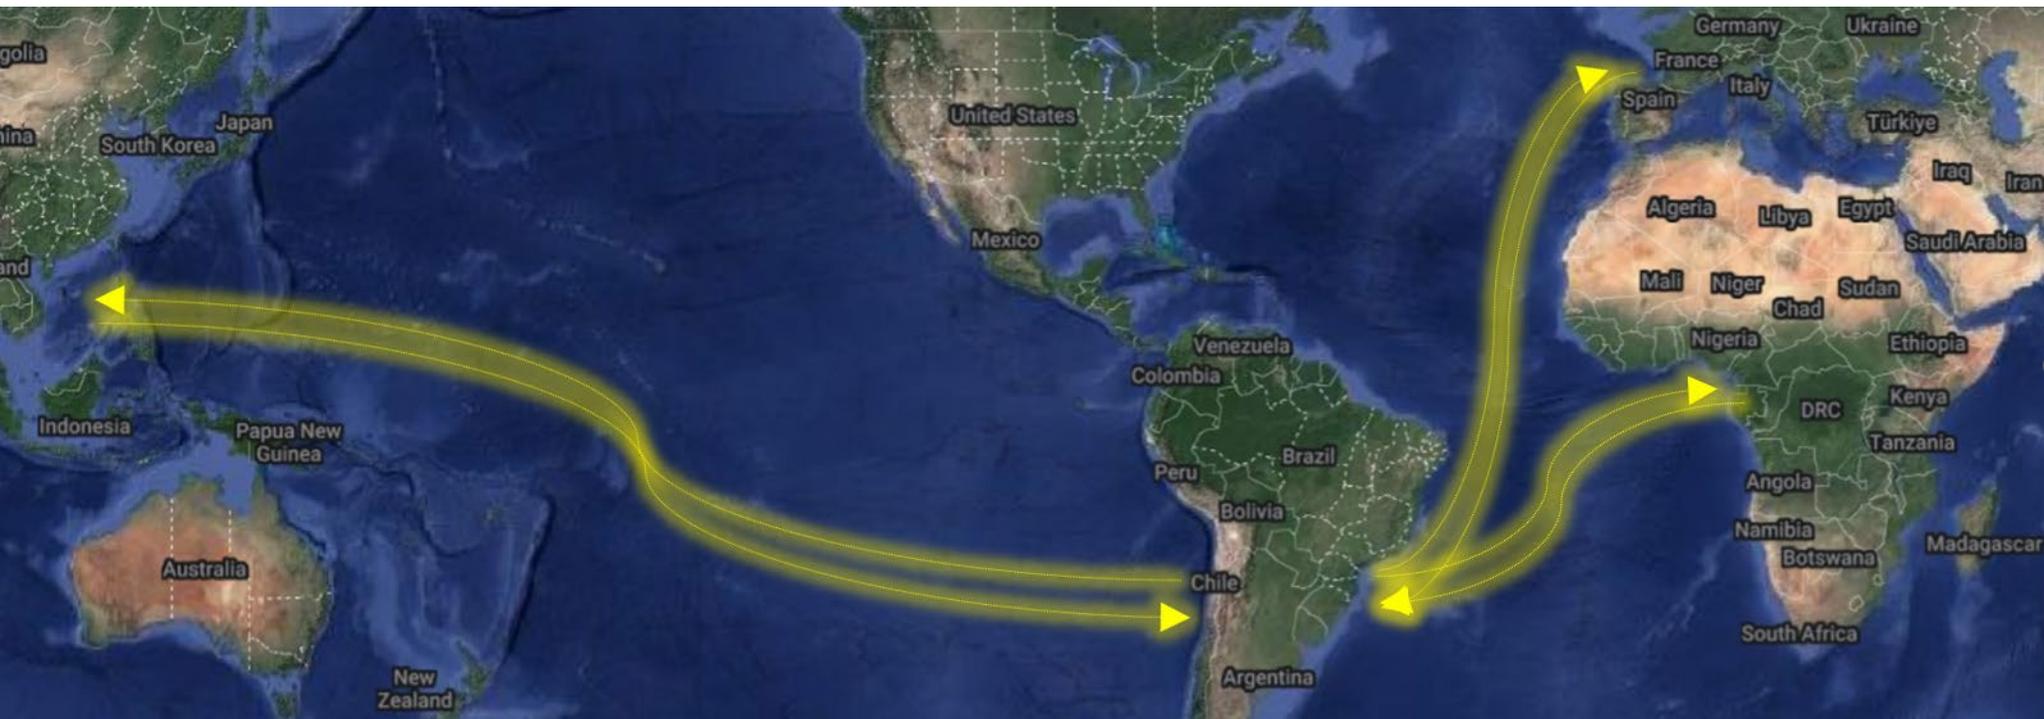

- **Bioceanic Corridor or Bioceanic Route** (<https://corredorbioceanico.org/en/>)
 - Engineering project under development in South America among Brazil, Paraguai, Argentina, and Chile
 - Purpose: create an efficient highway that connects by land the Atlantic Ocean (from the port of Santos, in Brazil) and the Pacific Ocean (to the ports of Chile).

Implementation of the TIR Convention, 1975: challenges and opportunities

Workshop

Implementation of the TIR Convention, 1975: challenges and opportunities

Workshop

Implementation of the TIR Convention, 1975: challenges and opportunities

Last considerations...

- Treaty accession
 - Same technical consense that we had
- As an Interested Party, we would like to keep on following discussions

Thank You !!!

Merci !!!

Obrigado !!!
